

Transport in Seville

A guide to travelling around Seville in a sustainable way

Sevilla.
Sevilla

Seville is looking forward to your discovery

Sevilla is a city of cities, a synthesis of the world, it is what you see and what you don't see. And to get to know all that it is, there is nothing like strolling through its streets, walking along its avenues, strolling through its parks, resting in its squares. On foot, by bike or sailing along its river, each way of moving around reveals one of its faces, a different palette of colours, a new way of enjoying it. Open your map or just go out and let yourself go. And if you want more, find it at www.visitasevilla.es

08. From the water

09. Horse-drawn carriage

On foot

There is nothing like going for a walk through its streets and letting yourself be surprised. Any journey is an opportunity to discover a facade, a corner, a combination of colours, a different rhythm. Whether it's a map in hand or letting yourself be carried away by what it shows you, it's well worth enjoying Seville's most sustainable means of transport.
